## Branching Out Spotlight!

Students in the after school Branching Out program have been working hard to prepare for the upcoming Spring season. Together, with Chef Crisp, they have started heirloom seeds to grow cauliflower, broccoli, and red cabbage.

When the seeds sprout and grow big enough, the students will then transplant them into the Outdoor Classroom. By late Spring to early Summer, the cauliflower, broccoli, and red cabbage will be grown enough to harvest and eat!

## *1st Family Garden Club Meeting!*

### Wednesday, April 5, after dismissal from 1:00pm - 3:00pm

### In Outdoor Classroom or Chef Lab depending on weather conditions

Spring is almost here (even though it doesn't feel like it)! All parents/guardians and students are welcome to participate in a fun family-friendly activity, no gardening experience required! We will also get your feedback on what garden activities you want to see and do at Creative City!

*All ages are welcome! No gardening experience required.*
*Together, we will connect with nature and our creativity.*
